

Gambrinus Organic Wheat Malt

Canada

GAMBRINUS
MALTING

Our plump, malted soft white wheat is of low protein. At a low inclusion rate of up to 10%, Gambrinus Organic Wheat Malt can be an additional source for body and head retention with minimal flavor contribution in any formulation. When it comprises a higher percentage of the grist for American wheat or blonde ales, Hefeweizens, or Witbiers, it imparts warm flavors reminiscent of rising bread dough and cereal.

Color °L	1.8 - 2.8°
Moisture % Max	4.5 - 5.5%
Typical Extract	82.0%
Usage Rate	Up to 30%
Protein Total	12.0
