

# SEQUOIA™

## Breeding / Development:

Sequoia™ is a hop blend from the BSG Hop Solutions program, available exclusively from Brewers Supply Group. Its sensory profile is a mix of tropical fruit and classic West Coast hop character.

**Sensory:** Pronounced tropical fruit (mango, pineapple) with citrus and pine.

**Brewing Application:** Sequoia™ is designed as a late kettle or dry hop for classic West Coast-inspired IPAs showcasing notes of tropical fruit, citrus, and pine. Its strong tropical fruit expression also makes it well-suited to hazy or juicy IPA, as well as other hop-forward styles.
