

NZH-107

Breeding/Development: NZH-107 is a proprietary experimental release developed jointly between New Zealand Hops, Ltd. and Brewers Supply Group. NZH-107 was created as part of the BSG Hop Solutions Program and is exclusively sold through BSG.

Sensory: Intense tropical fruit (guava/passion fruit) and citrus (grapefruit/lime) aroma characteristics.

Brewing Application: NZH-107 is an excellent hop solution for many applications from first kettle to dry hop additions. Given the big character of NZH-107, early trials are focused on intensely hop-forward styles like IPAs, pale ales, and dry-hopped pale lagers.

SENSORY HIGHLIGHTS

Passion Fruit
Grapefruit
