

Huell Melon

German

Origin: Germany. Bred by the Hop Research Center of Hüll, this new variety is a daughter of Cascade released in 2012.

Usage: Aroma. Huell Melon's unique but mellow fruit character makes it a good choice for styles where overpowering hop flavor may not be warranted. It melds well with the yeast character of Hefeweizen and Belgian ales, but can also work as a standalone hop as a feature of a summer seasonal or Brett fermentation.

Aroma & Flavor Characteristics: Mild to moderate with vivid impressions of summer melon (especially honeydew) and ripe strawberry bouquet.

Maturity: No data available

Yield: No data available

Alpha Acid Range %	7.0 - 8.0%
Beta Acid Range %	6.0 - 8.0%
Co-Humulone as % of alpha	25 - 28%
Total oils mL/100 gr.	0.8 - 1.2
