

Polaris

German

Origin: Germany. Released in 2012, Polaris is part of the new wave of “flavor hops” released by the Hüll Institute.

Usage: Aroma. With typically very high alpha acid levels and high oil content, Polaris makes its presence known in IPAs, Brettanomyces fermentations, and Belgian styles. Use a base malt with enough character to stand up to it!

Aroma & Flavor Characteristics: Intense and lingering impressions of wintergreen, pleasant fruit notes, with a Hallertau-like sweetness and herbal note. Can exhibit a pungent, exotic spice flavor early in fermentation.

Botanical Classification:

Family: Cannabaceae

Genus: Humulus

Species: Lupulus

Maturity: No data available

Yield: No data available

Alpha Acid Range %	18.0 - 24.0
Beta Acid Range %	5.0 - 6.5
Co-Humulone as % of alpha	22 - 29
Total oils mL/100 gr.	4.4 - 4.8
