

UK East Kent Goldings

English

Origin: England. The queen of English hops with a pedigree dating back to 1790, East Kent Goldings is to British brewers what Hallertau Mittelfrüh is to their German colleagues. A premium appellation, East Kent Goldings hops can only come from East Kent - Goldings hops grown in other counties are known as UK Goldings.

Usage: Aroma. Regarded for centuries as England's finest hop, EKG has been a spotlight flavor in the profiles of hoppy ales from the British Isles: IPA, pale ale, and bitter. It's used at lower rates to subtler effect in Scottish and other darker, maltier ales.

Aroma & Flavor Characteristics: Flowery with citrus peel or citrus candy overtones and an herbaceous, spring meadow-like undercurrent. Gentle and refined, dry hopping can bring forth its citrus aspects alongside a fresh grassy note.

Maturity: Medium

Yield: 1,200 lbs/acre

Alpha Acid Range %	4.0 - 6.5
Beta Acid Range %	1.9 - 2.8
Co-Humulone as % of alpha	20 - 25
Total oils mL/100 gr.	0.4 - 0.8
