

## TECHNICAL DATA SHEET

### LEUCOFOOD™

#### Composition and appearance:

- Ingredients: Fully autolyzed yeast products, vitamins
- Deep mustard-tan, hygroscopic powder with a yeasty aroma
- Contains no inorganic nitrogen

#### Purpose:

- Nutrient for Malolactic (ML) bacteria
- Stimulates ML fermentation in must and wine
- Recommended to be used with any strain or preparation of ML bacteria

#### Typical Dosage Rate:

- 0.15-0.2 g/Gallon (4-5 g/hL)

#### Preparation and use:

- Dissolve in water or wine before adding, or stir directly into wine.
- If inoculating with ML bacteria, add Leucofood at the same time, and circulate.
- If adding to wine that was previously inoculated with ML bacteria, check microscopically and reinoculate with a fresh culture if no bacteria are seen.

#### General Points:

- Contains vitamins not permitted for organic wine

#### Shelf Life and Stability:

- Store tightly closed at cool room temperature (20 C/68 F or below) in a dry place.
- Material is very hygroscopic, will become sticky and lumpy if exposed to air. Discard if hard lumps form.
- Can be used for 2 years if it is still in powder form and retains a clean, yeasty aroma.
- Shelf life may be reduced significantly if stored at a warmer temperature and/or in humid conditions, or if stored in contact with air.

#### Safety Information:

Skin and eye irritant; wear eye protection, dust mask, and coat

GMO STATEMENT: To the best of our knowledge and the knowledge of the supplier or manufacturer of the ingredients, no GMO's are used in the preparation or manufacture of any of our nutrient products.
